

PLASTIC SOLID SHEETS

KEYPACK

výroba a vývoj obalů – Kartonplast

PLASTIC SOLID SHEETS

Solid sheets made of plastics, perfect material for thermal forming.

Product range:					
Type	ABS sheets	PS sheets	PP sheets	LDPE sheets	HDPE sheets
Raw material	copolymer: acrylonitrile- butadiene-styrene	polystyrene	polypropylene	low density polyethylene	high density polyethylene
Dimensions:					
	Dimension [mm]		Tolerances		
Length	500 ÷ 7000		± 1%		
Width	400 ÷ 1400		± 1%		
Thickness	1,5 ÷ 6,0		± 0,2 mm		
Length	500 ÷ 4000		± 2%		
Width	800 ÷ 1200		± 2%		
Thickness	6,0 ÷ 14,0		± 0,3 mm		

Types of sheets:

- ⊗ with both sides smooth
- ⊗ with one side milled

Optional characteristics – according to Client's requirements:

- ⊗ antistatic agent
- ⊗ UV stabilizer
- ⊗ corona treatment
- ⊗ optionally layered sheets are offered
- ⊗ colors compatibles with RAL

Application:

- ⊗ refrigeration, electronics, packaging materials, chemistry, installation and motor-car industries
- ⊗ advertising
- ⊗ construction industry
